WIELTON GROUP

Wielton Group comprises Wielton SA (The largest Polish manufacturer of semi-trailers, trailers and truck bodies), Italiana Rimorchi (Italy), Wielton AGRO (vehicle manufacturer for agriculture) and the leader of the French market, Fruehauf (France), an associated company. Wielton SA, the main company in the Group, is listed on the Warsaw Stock Exchange and is among the five largest manufacturers in its field in Europe. Coordinating remaining activities are: Wielton Investment (investment projects), Wielton GmbH, Wielton Russia, Wielton Ukraine, Wielton Belarus (commercial activities) and Wielton Logistic (transport services for Group companies and third parties).

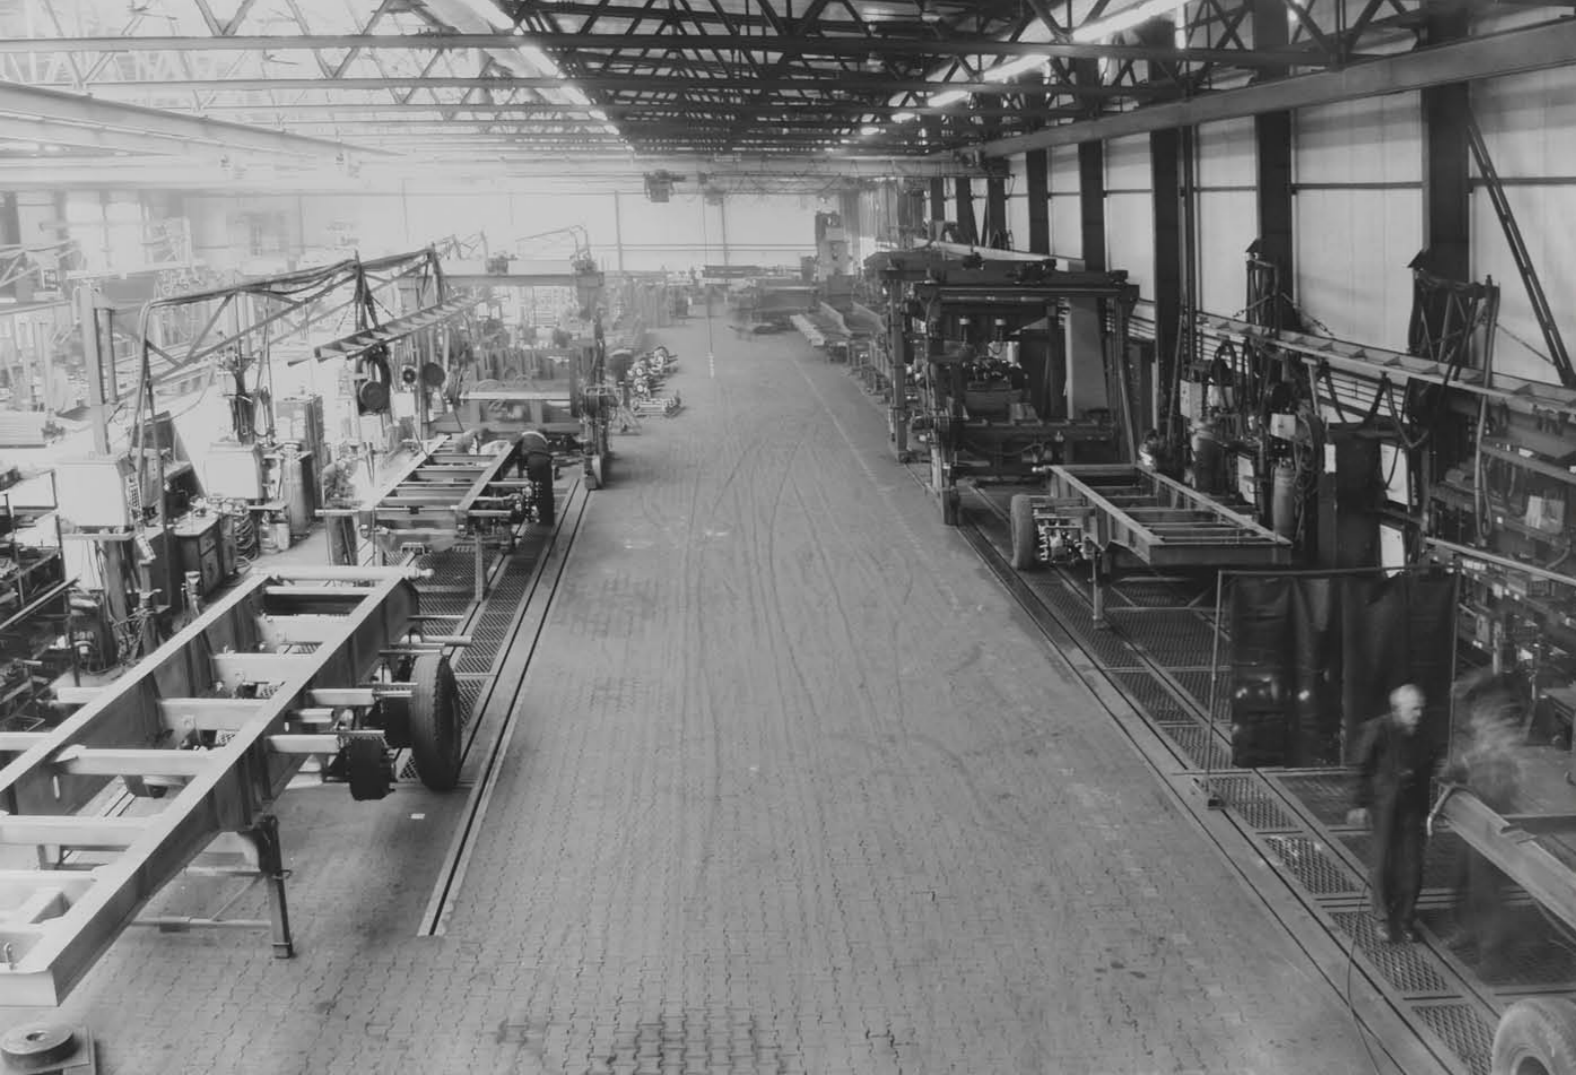

WIELTON is currently the largest manufacturer of semi-trailers in Poland, with a significant share in the market.
What is the secret of our success?

Our main advantages are:

- Strong supporting structures built after years of tests in demanding road conditions of Central-Eastern Europe in order to ensure good performance in all Europe.
- State-of-the-art technology ensuring high quality and repeatability of production and high productive capacity.
- Most extensive product offer on the market at affordable prices.

HISTORY OF WIELTON

20 20 YEARS OF INNOVATION

WIELTON'S RESEARCH AND DEVELOPMENT CENTER – THE ONLY ONE IN POLAND AND ONLY THE SECOND ONE IN EUROPE!

Resulting from the project there is a dedicated station for specialized measuring and testing, equipped with top-class equipment used for simulation studies, materials, diagnostic systems and hydraulic brake and diagnostic vehicle construction. This facility provides for comprehensive checking and testing of new design solutions for trailers and semi-trailers at the stage of design and prototyping.

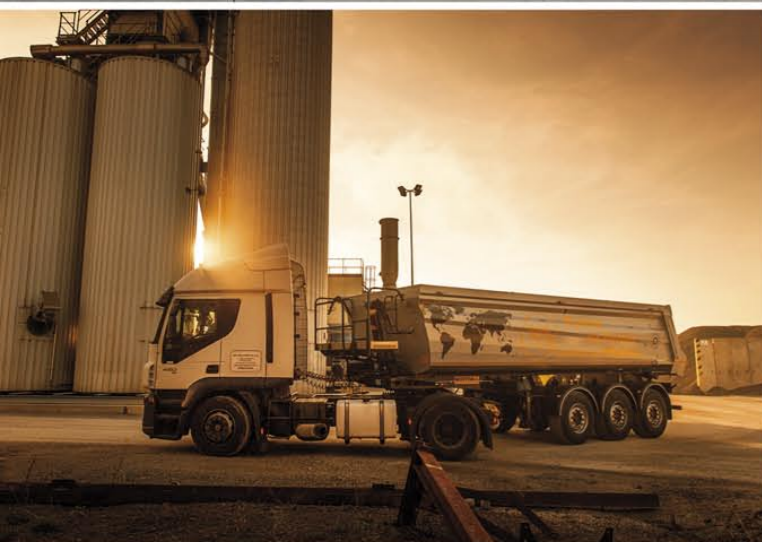

The research center is enabling a full vehicle study of semitrailers, which allows you to check the behavior of the construction trailers in real road conditions. The vehicle, without leaving the testing hall, can drive a distance, eg. 1 million km during approx. 2 months, which in normal operating conditions, it would take 3 to 5 years.

Wielton has 2 research offices one in Wielun and a satellite center in Gliwice. In addition, the work of designers is supported by specialists engineers and analysts carrying out strength calculations. In 2015 The Ministry of Economy gave Wielton its individual scientific status. With the development of the company has increased the design team working on the development of new products. Initially it consisted of 5 people, today the Research and Development team is almost 40 qualified engineers. The increase in the number of people involved in development work reflects to a large extent the quality and quantity yearly of new products.

Due to the need for validation of prototypes in Wielton's Department of Research and Development there is a separated special section responsible for planning, conducting and analyzing research results. The team of analysts within its jurisdiction conducts research focused on the strength, functional and durability of prototypes ensuring high reliability of new products.

The project for the Research and Development Centre is co-financed by the European Union from the European Regional Development Fund within the Innovative Economy Programme. The main objective is to raise technological advancement and the safety of vehicles produced.

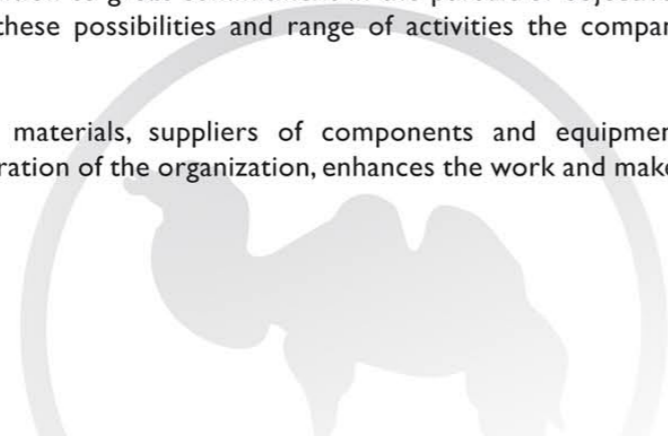

PRODUCT RANGE

Wielton offers 65 types of products: 17 groups available in over 800 configurations. Our series manufactured products are regularly enriched with new models, adapted to the ever changing requirements of customers. We also constantly introduce additional technical embellishments and we choose the high-end components. Our wide range of products include, among others, box semi-trailers, curtain, refrigerated, flatbed, self-unloading steel and aluminum tipper semi-trailers, trailers for transportation of containers, semi-trailers for machine transportation, various types of trailers and lorry bodies and swap bodies.

Quality First

Success, especially in the international arena requires, in addition to great commitment in the pursuit of objectives, openness and cooperation with other entities. Thanks to these possibilities and range of activities the company exceeds its own barriers.

Wielton SA collaborates with manufacturers of chassis, materials, suppliers of components and equipment. Partnership with other companies facilitates the smooth operation of the organization, enhances the work and makes it operate faster and more accurately.

SELF UNLOADING TRAILERS:

- Cubature from 23 to 64 m³
- Steel body
- Aluminium body
- Half pipe
- Steel body for scrap transportation

TRAILERS

- Curtain sider
- Box - Tarpaulin
- Tyre transportation
- Steel spool transportation
- Steel sheet transportation
- Beverages transportation
- Intermodal
- 2 tier loading

HIGH VOLUME COMBINATION UNITS

- Box tarpaulin
- Curtain
- Box

TRAILERS

- Box
 - Intermodal
 - 2 tier loading
- Reefers

TRAILERS

- Container chassis

TRAILERS

- Moving floor

PIVOTAL TRAILERS

- Box
- Box-tarpaulin
- for transportation of hook containers

SEMI-TRAILERS AND TRAILERS

- machinery transportation

BODIES

- REAR TIPPING
 - half pipe
 - square
 - scow end
- THREE - WAY TIPPING
 - standard
 - with hydroboard

PRODUCT RANGE

2-AXLE AGRICULTURAL TRAILERS

- PRS-2/W6
- PRS-2/W8
- PRS-2/W10
- PRS-2/W12
- PRS-2/W14

AGRICULTURAL SEMITRAILERS

- PRC-2A/W6
- PRC-2A/W8
- PRC-2B/W10
- PRC-2B/W12
- PRC-2B/W14

HALF-PIPE TIPPERS

- PRC-2HP/W18R
- PRC-2HP/W18RN
- PRC-2HP/W18B
- PRC-2HP/W18BK

PLATFORM TRAILERS FOR BALES

- PRS-2S/S9
- PRS-3S/S14
- PRS-3S/S24

DOLLY TROLLEYS

- PRD-1
- PRD-2

SLURRY TANKS

- PRB-1/7000
- PRB-2/10000
- PRB-2/14000

WIELTON GROUP: SERVICING FACILITIES

Wielton provides its customers with professional service support across Europe.

Trailers manufactured by Wielton SA are safe and reliable. However, like any complicated technical equipment they require professional maintenance arising from various conditions in which they work, unexpected road situations and varying requirements of customers. We want you to be most satisfied with our vehicles. Therefore, from the beginning of the manufacturing process we care about their quality and as part of our after-sales service we provide many services related to their operation and maintenance. The most important services in this area are:

- ☛ MOBILE SERVICE - VEHICLE SERVICE
- ☛ FACTORY SERVICE - FAST AND PROFESSIONAL NETWORK
- ☛ TRAINING
- ☛ AUTHORIZED SERVICE POINTS - SERVICE IN POLAND AND EUROPE
- ☛ PARTS
- ☛ SALES POINTS

Our greatest strengths

MOBILE SERVICE - ROADSIDE SERVICE

We have our own service vehicle equipped with the necessary tools to repair faults, directly at the customer's location.

FACTORY SERVICE - FAST AND PROFESSIONAL

Wielton Group's factory service has the most modern equipment and allows the use of specialized production facilities. Clients are also provided advice by Wielton constructors. Repair carried out by our factory service are the guarantee of getting the same quality attention as afforded to new products. Wielton is an authorized repair workshop within the PZU SA network, which facilitates customers settlement of motor claims.

Wielton Group's mission

is to improve transportation by providing modern and safe vehicles: trailers, semi-trailers and truck bodies

SALES NETWORK

Poland

As the largest manufacturer of trailers and semi-trailers in Poland and one of the 10 leading manufacturers in Europe WIELTON has an extensive distribution network of its products, which allows our company to be always close to the customer - both in Poland and abroad. In Poland there are 17 regional sales centers.

In addition to its own sales offices, sale of Wielton products is realized through dealers worldwide. The recipients of the Company's products are transport companies, construction, manufacturing, agriculture and distribution companies in the country as well as foreign dealers of goods, vehicles and trailers.

Export

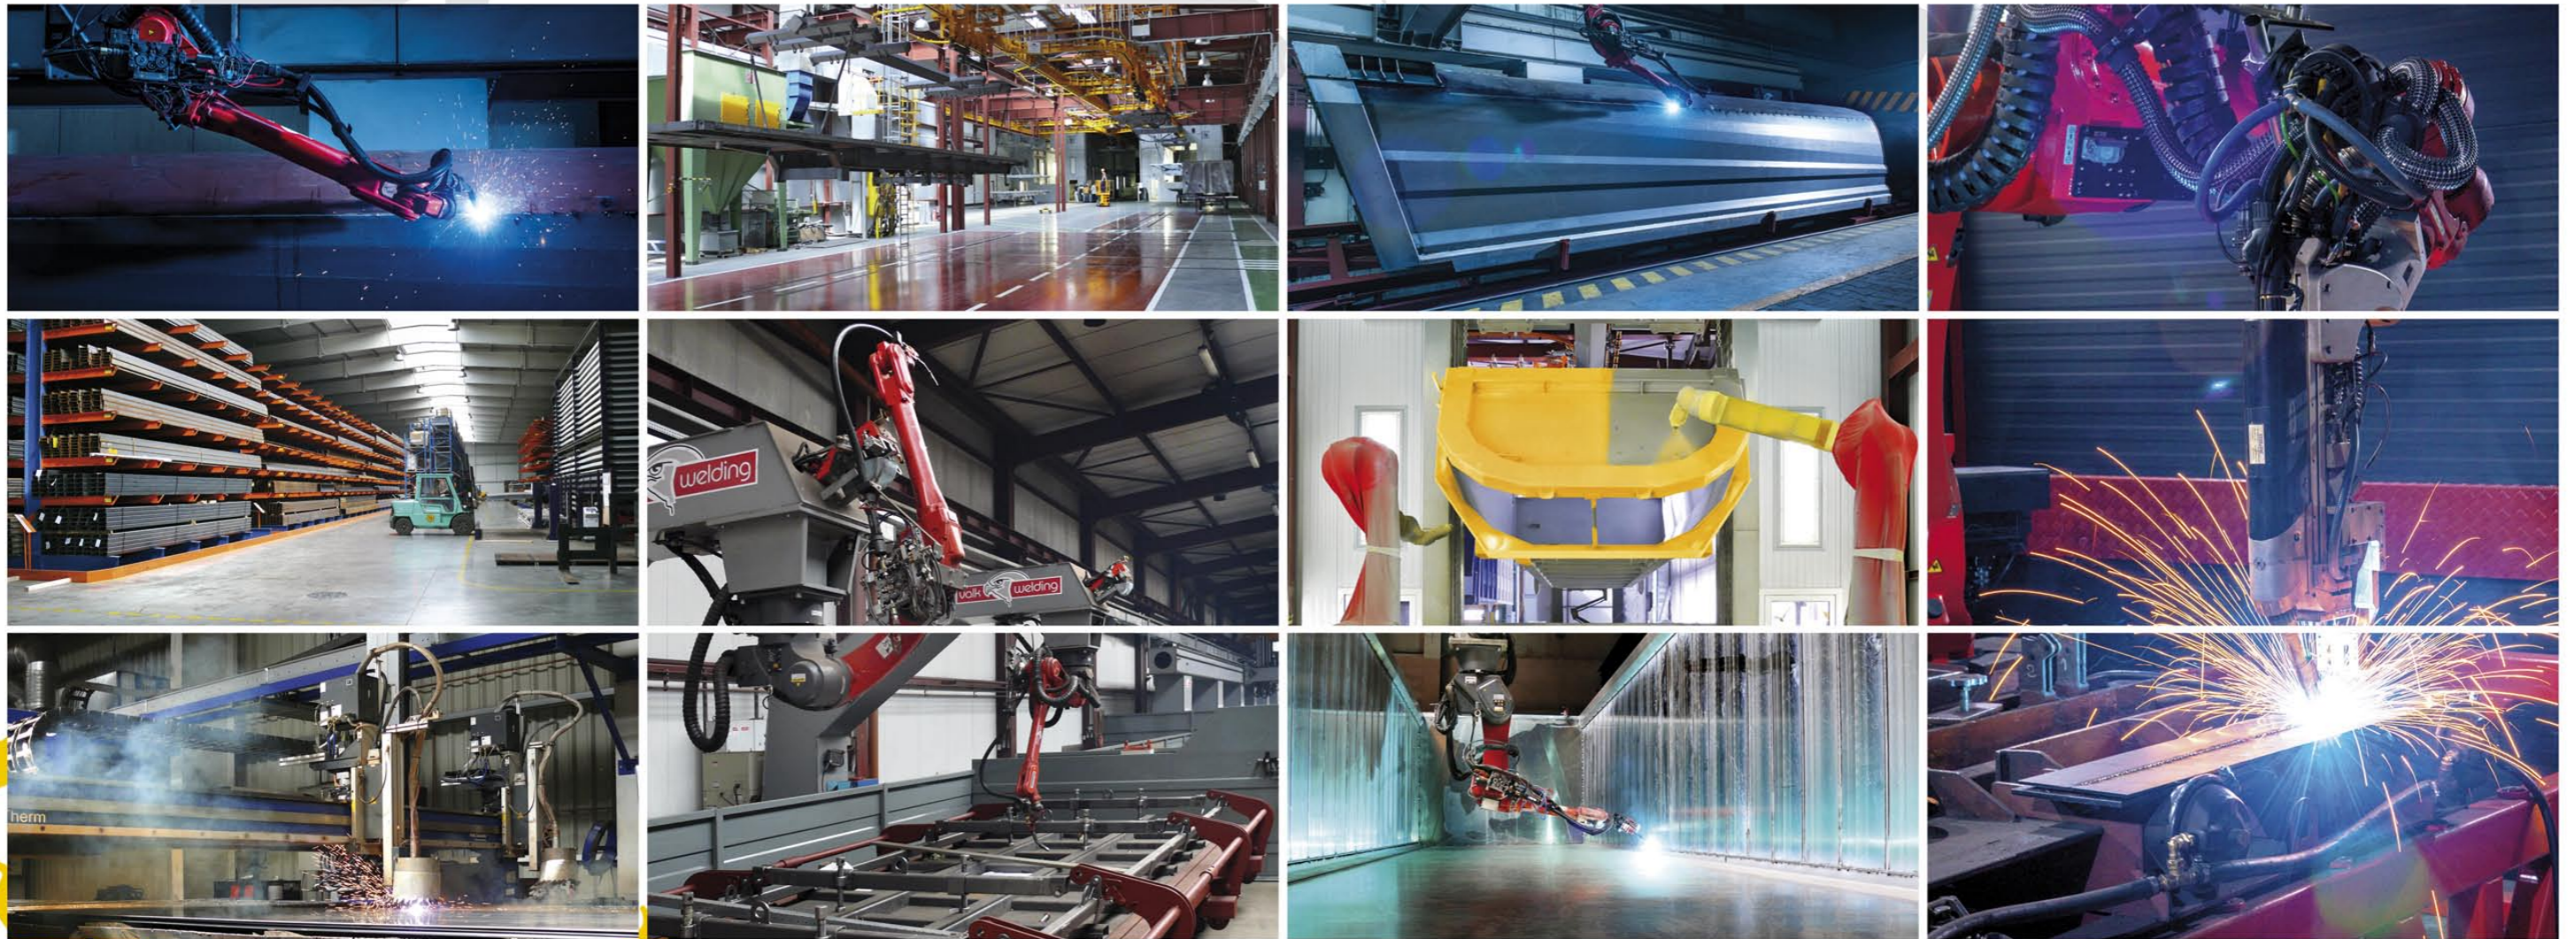

Currently, our company is one of the leading manufacturers of semi-trailers and trailers in Europe.

With an extensive sales network more than 60000 trailers and semi-trailers move about on the roads of Europe. They also reach to 35 countries, including: Poland, Germany, France and Italy, as well as to countries in Asia and Africa. Wielton Group has two production plants, in Poland and France, as well as two assembly plants, in Italy and in Russia. Also it provides its customers with support services across Europe.

We want to be the best in our industry and steadily increase market share of our products abroad. We try to be wherever we can reach new customers. We are and will remain at the most important trade fairs in Europe.
